

Meningococcal disease  
can take the life of a child  
in just a single day

Preteens and teens  
are at greater risk

## Giving Voice to Meningitis Prevention

Health officials  
recommend  
vaccination

**Amy Purdy**, Meningococcal Meningitis Survivor

"I lost both of my legs, my kidneys, my spleen, part of my hearing, and almost my life to meningitis. And I'm one of the lucky ones."

**VOICES**  
OF MENINGITIS™

A Meningococcal Disease Prevention Campaign  
from the National Association of School Nurses

In collaboration with sanofi pasteur

Meningococcal meningitis may  
be rare, but it's often devastating

Talk to your school nurse or health-care provider.  
Don't wait — get vaccinated!
